

UI Testing:

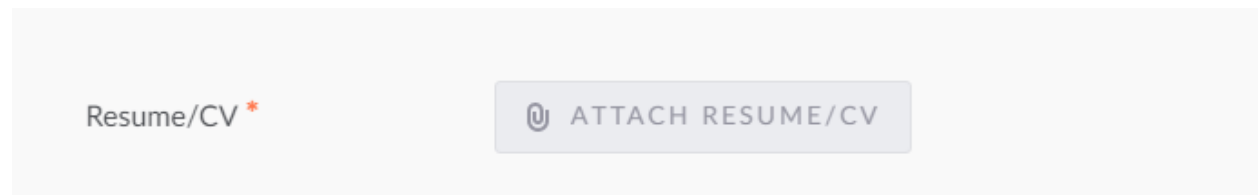

In this assignment you will need to use: Java, Maven, Selenium WebDriver and Junit/TestNG frameworks and OOP architecture. Upload your solution to GitHub public repository and send a link.

Setup:

- Navigate to <https://basis.com>
- Go to Company → Careers
- Press View All Positions
- Filter results by location set to United States
- Choose Apply for position (any of them)
- On the new screen press Apply to the Job button

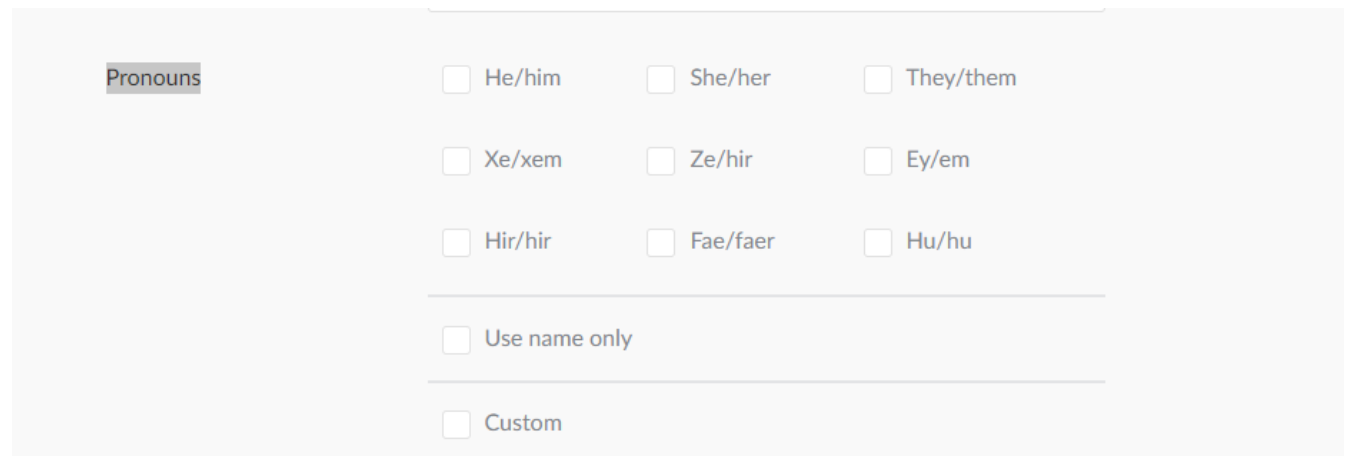

Tests:

1. Add test scenarios for resume attachment field

The screenshot shows a form field labeled "Resume/CV" with a red asterisk indicating it is required. To the right of the label is a button with a paperclip icon and the text "ATTACH RESUME/CV".

2. Add test scenarios for Pronouns fields.

The screenshot shows a form section titled "Pronouns". It contains a grid of checkboxes for selecting pronouns:

<input type="checkbox"/> He/him	<input type="checkbox"/> She/her	<input type="checkbox"/> They/them
<input type="checkbox"/> Xe/xem	<input type="checkbox"/> Ze/hir	<input type="checkbox"/> Ey/em
<input type="checkbox"/> Hir/hir	<input type="checkbox"/> Fae/faer	<input type="checkbox"/> Hu/hu

Below the grid, there are two additional options separated by horizontal lines:

- ☐ Use name only
- ☐ Custom
